

JIMM sunlight reaches MCIVER

Jimm McIver is an independent pop-song-magi with deep Seattle roots. He writes intelligent, beautiful and sometimes ridiculous songs. He sings them with the voice of a dark angel, a wilted rose petal, a lion roaring.

Sunlight Reaches is his 3rd solo album, his 7th overall and most importantly his most mature, fully-realized work. This album began life at the Steel Bridge Songfest in Sturgeon Bay, WI with the poignant opener, "I Wonder If She Knows" – written following the death of his mother. Backed by a crack band, *Sunlight Reaches* is fully loaded – Motown groovin' with "Witchcraft", the funky Stax-styled "Temptation", the witty, Hitchcockian "Suzanne Taliban", the truly insincere "Up and Coming Killer" and the simple longing of "Hannah". Mysteriously, these songs gel into a cohesive, satisfying whole.

It has been 9 years since Jimm's last solo work. The wait has been worth it.

Quotes & Previous Press

"Jimm is a pop encyclopedia with smarts and a killer voice."

-Walter Salas-Humara (The Silos)

"Jimm has earned both 'm's in his name -- his songs elicit 'mm...' and 'hmm...' reactions every time he plays." -pat mAcDonald (Timbuk3, Purgatory Hill)

Sweet Petunia Modern: "creative and wildly enjoyable . . . like a weekend drive through green hills, a cool breeze in your face and sun shining down." Some Forgotten Reviewer/Somewhere

"I love this album. This is my favorite album this year. Although folks are calling it a "concept" album, I prefer to think of it as a rock opera wedged somewhere between Sgt Peppers and Eldorado." [Adelaide M. Blair](#)

Polaroid Angel: "It's a fine showcase of McIver's songwriting ability along with his talent of bringing energy and mood to vocalizations. If you like a variety of strong melodic pop that grows better over time, you can't go wrong with this debut collection. Gary Glauber, [Pop Matters](#)

The Life – Alone: "as tight as a sheep's bum at a drunken cowboy convention." Jeff Penczak, [The Terrascope](#)
