## Glass Penguins - *Raspberry* (1987, Green Monkey)

This cassette album from a good three decades ago will be of interest a lot of you. Not due so much to the renown of Glass Penguins prime mover Michael Cox, but some of his collaborators, including Kurt Bloch (Fastbacks), Scott McCaughey & Chuck Carroll (Young Fresh Fellows) and last but not least Jon Auer of The Posies who co-engineered *Raspberry*. By and large this is Michael's baby, with the aforementioned primarily playing background roles. No true blue revelations here, but all and all a pretty good tape that sonically pursues DIY, bedroom/power pop avenues. The opening "Girl I've Never Met" and later, "Out of the Rain" might mesh appropriately
